

The Armastec™ AireLevate™ is an assistive suit that lightens the load on your back when moving heavy objects. It helps to reduce physical strain, minimize the risk of injuries caused by repetitive motions or prolonged exertion, and is comfortable to wear.

BENEFITS

- **INCREASED PRODUCTIVITY:** Boost worker productivity by reducing fatigue and enabling them to perform tasks faster and more efficiently.
- **IMPROVED SAFETY:** Prevent workplace injuries by providing additional support, stability, and load-bearing capacity.
- **SAVE COSTS:** Improving productivity reduces the need for additional manpower. Preventing workplace injuries saves healthcare costs.

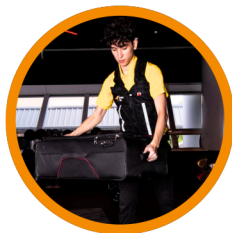

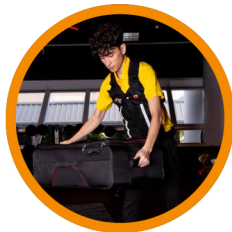

USEFUL WHEN YOU ARE

- Moving heavy objects
- Climbing stairs / ladder
- In a forward-leaning posture

FEATURES

- **EFFECTIVE:** Proprietary design aids movements with up to 55% lifting support
- **SIMPLE:** Easy to wear in 20 seconds with user-friendly design
- **COMFORTABLE:** Suitable for whole day usage with good air circulation
- **HYGIENIC:** Antimicrobial and machine-washable
- **FLEXIBLE:** Easy for the user to bend, sit, twist
- **AFFORDABLE:** Return on investment within months

SPECIFICATIONS

- **Form Factor:** Vest
- **Weight:** 1.5 kg
- **Time to Wear:** 20 seconds
- **Power Source:** Compressed Air
