

HAZCHEM ABSORBENT PADS

200GSM | 400GSM

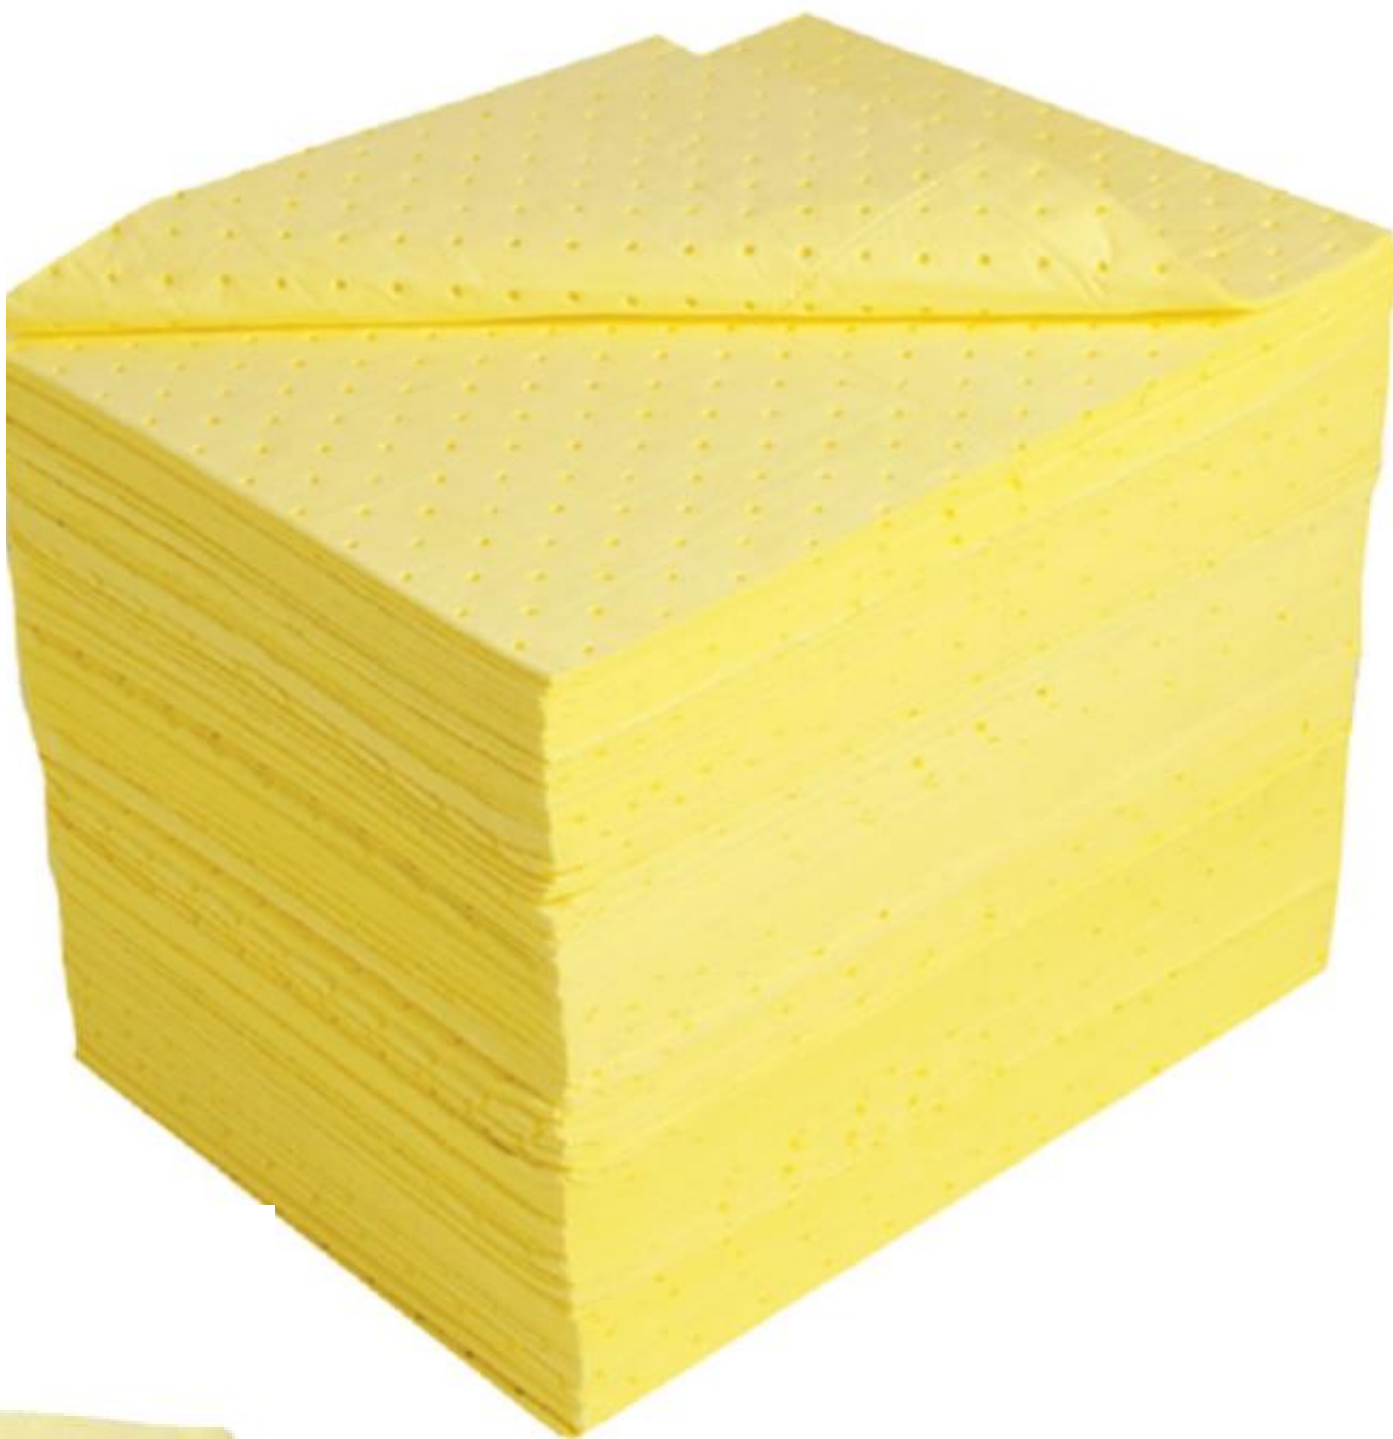

FEATURES & BENIFITS :

Economical choice for quick, efficient response to spills of hazardous or unknown liquids.

Yellow, Melt-blown polypropylene pads are designated for aggressive fluids & solvents. Dimple standard 3 layers offers improved strength & durability. Atni-Static treatment to dissipate potential static build-up in confined spaces with limited ventilation.

For use on all hard surfaces to contain and absorb both oil-based and water-based liquids spills. Can be used on most liquids, including glycols, mild acids & alkali's, but cannot be used on oxidizers. Commonly used in the automotive, industrial, commercial , Lab, warehousing, DG Packaging, waste management and manufacturing industries.
