

OIL ONLY SORBENT BOOM 5" x 10'

Strong mesh outer sleeve encases a poly sock skin filled with highly-sorbent polypropylene, which repels water while only absorbing oil and other hydrocarbons.

Filler won't shed and Booms won't sink, even when saturated with oil.

Connectors link booms together with overlap, creating a containment system big enough for almost any spill. A nylon rope and sturdy hardware ensure long-lasting durability and easy retrieval.

Provides a quick and efficient cleanup to help protect the environment from contaminants. Suited for short term use.

Specifications

Dimension: 5" Diameter x 10' Length

Packing Size: 4 Boom Per Bale

Color: White Speckled Filler/White Sleeve

Composition: Poly Blend Filler/Polyester Netting/Metal Hardware

Absorbency: Up to 200 Litre per package

Absorbency: Up to 50 Litre per boom

Weight: 15.5kg
