

GENERAL PURPOSE ABSORBENT ROLL

General Purpose Heavyweight Rolls are bonded to provide extra strength, meaning they will never come apart, even when fully saturated with oil.

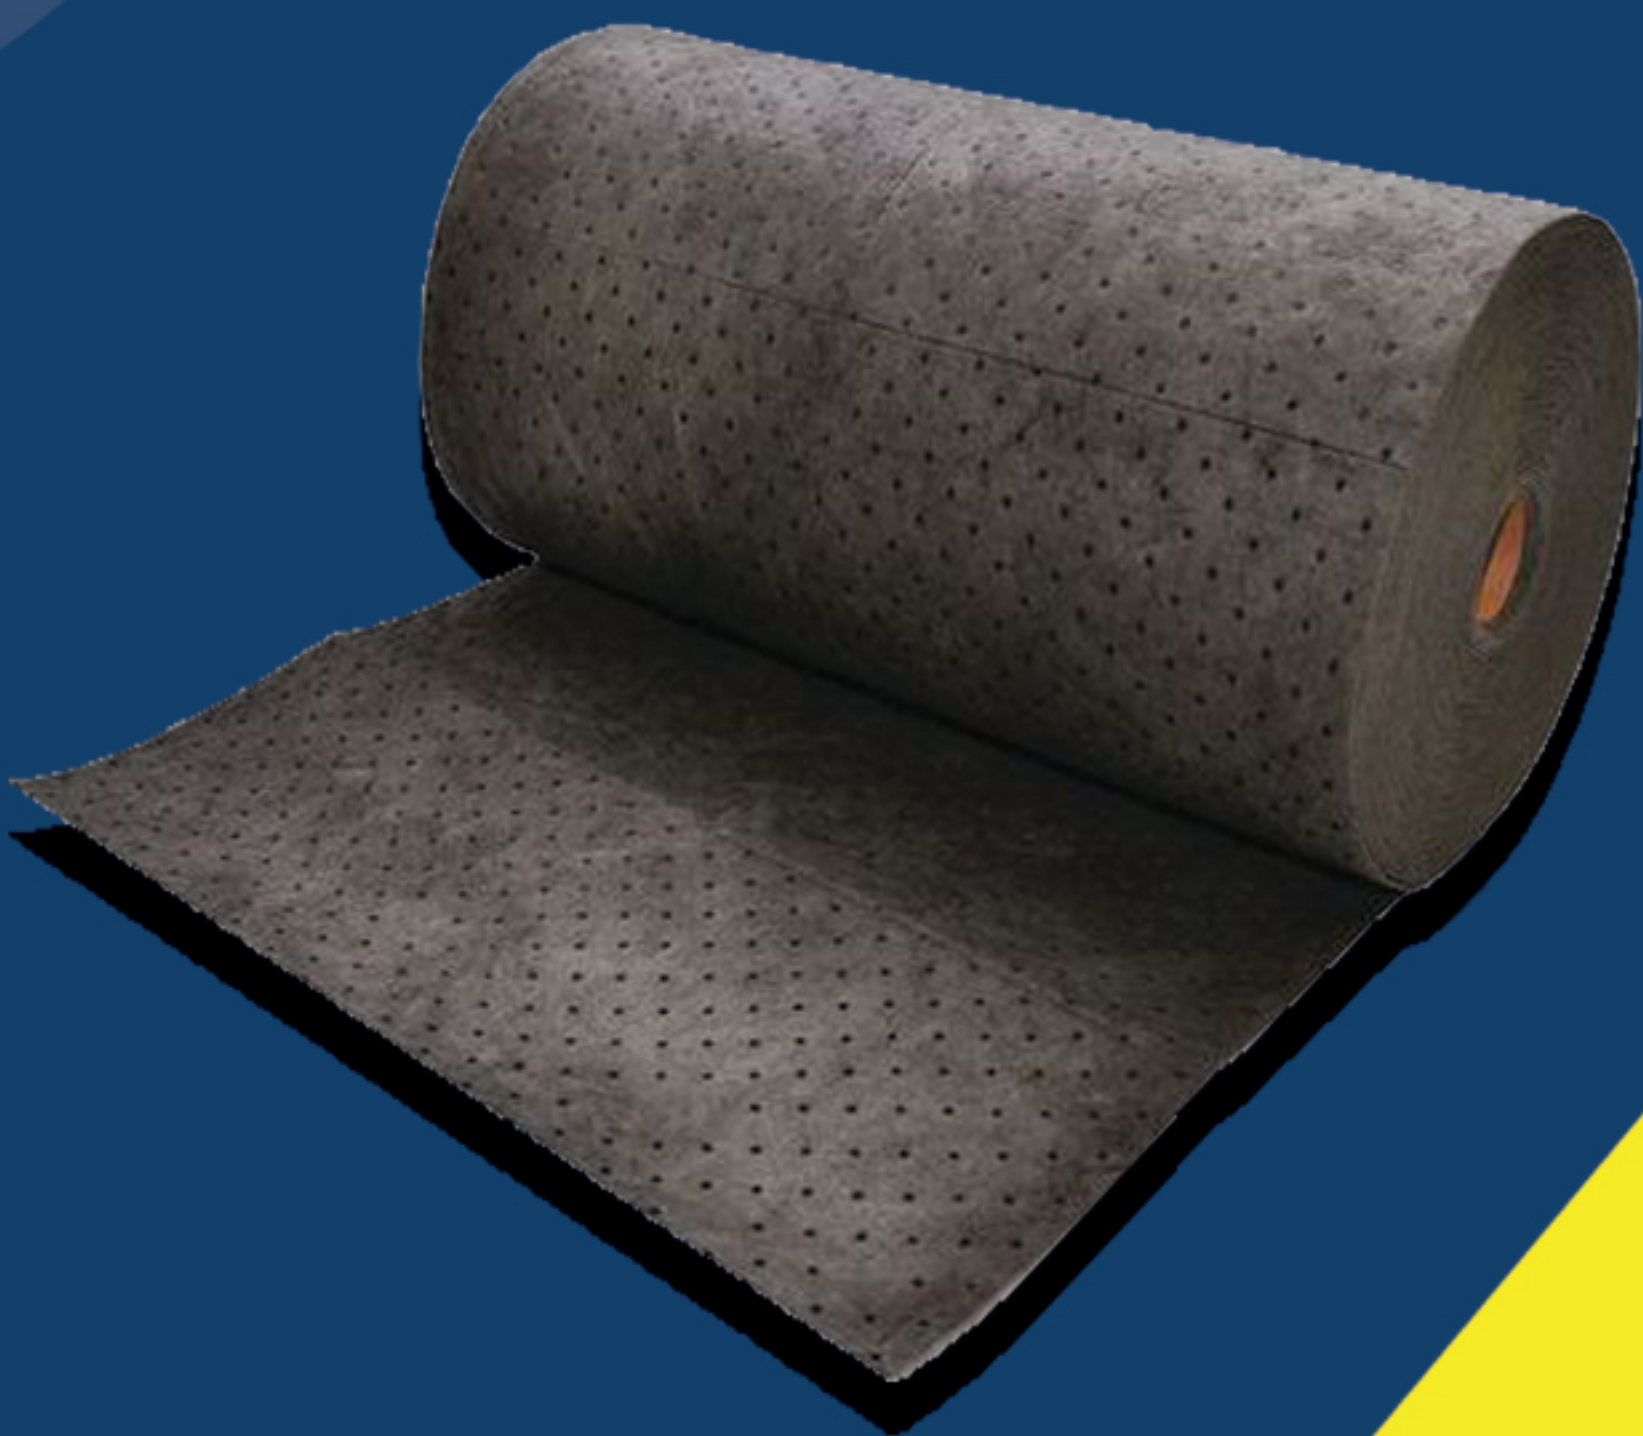

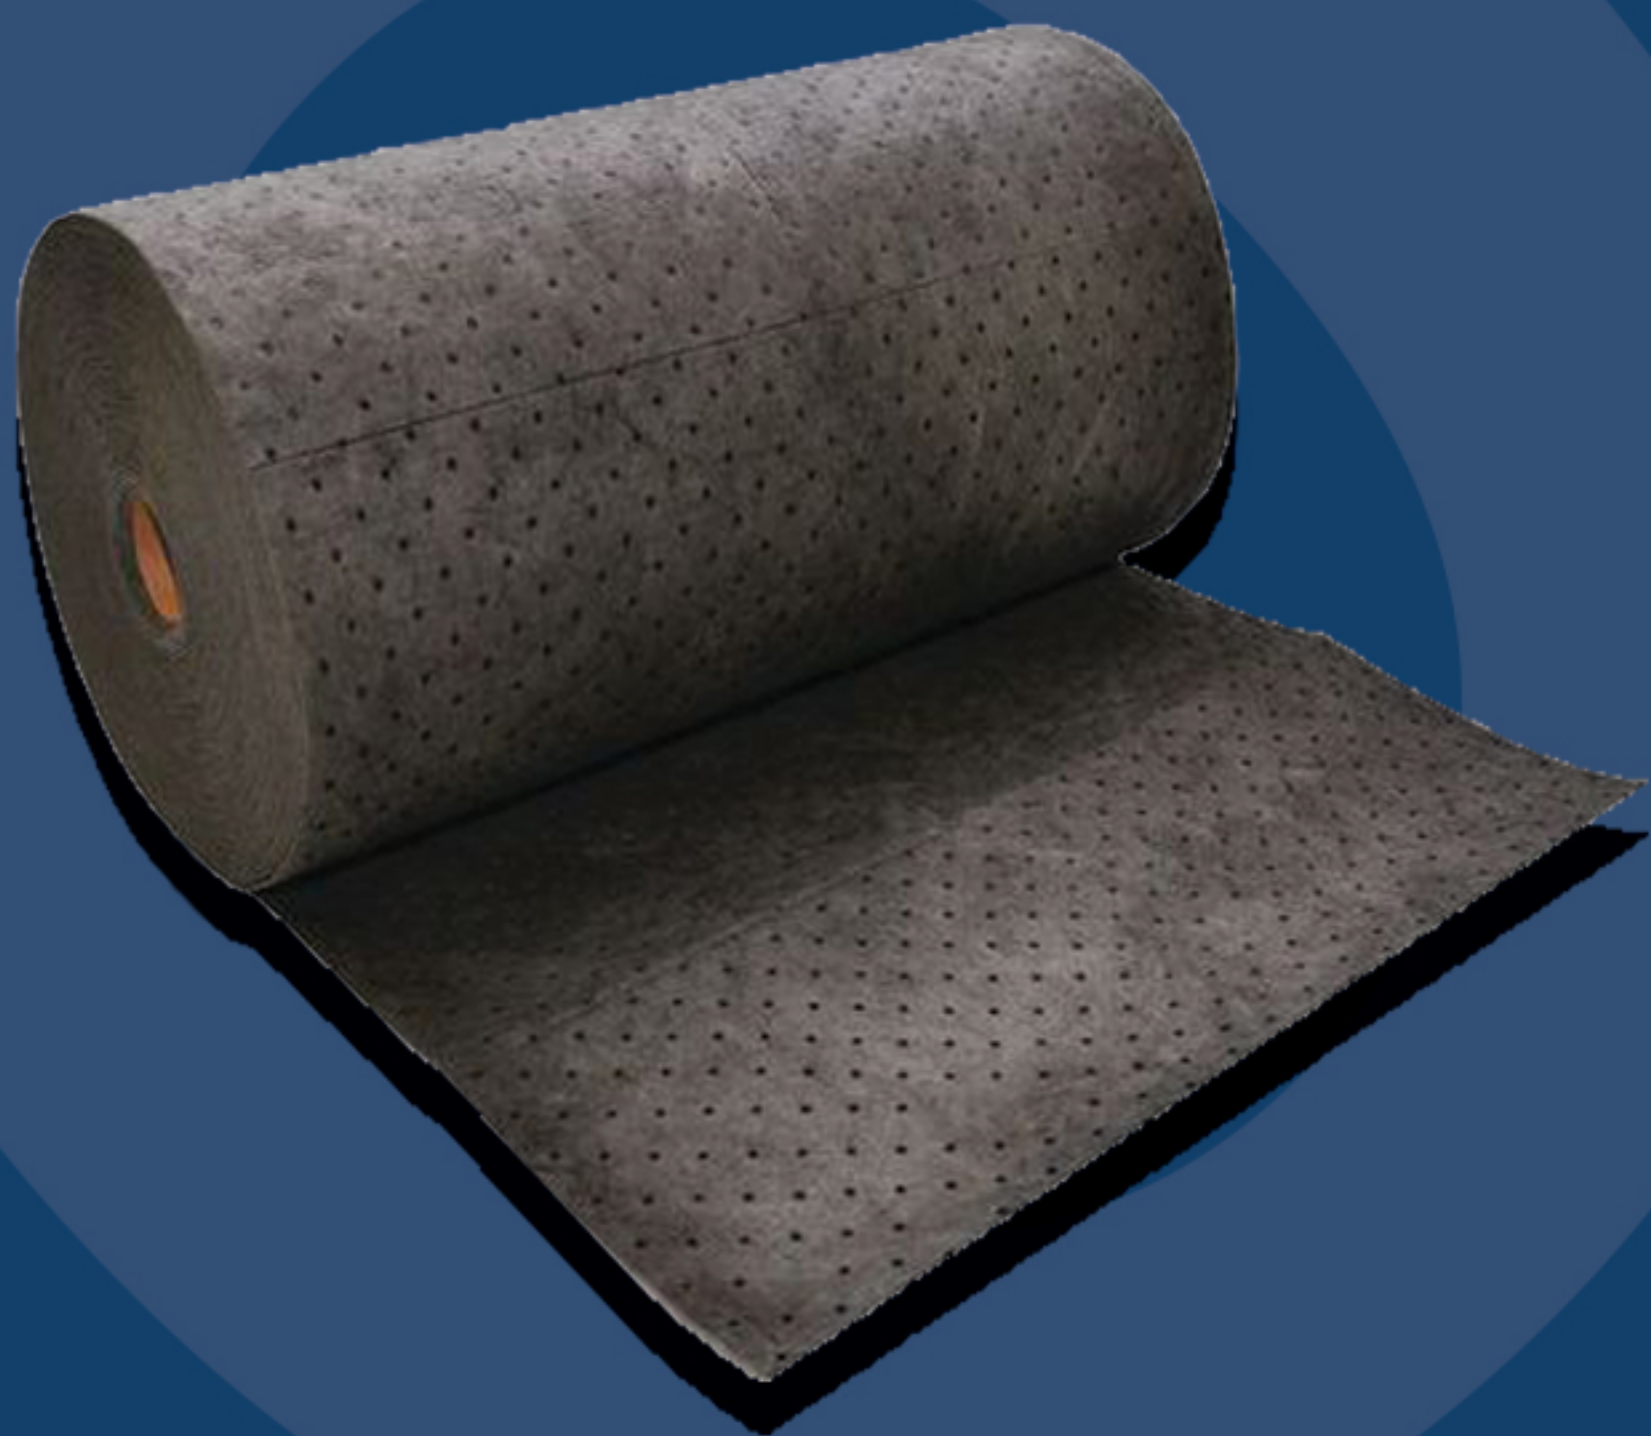

Heavyweight rolls are 200gsm thick and 50m long.

They are perforated along the centre as well as across the width so they can be easily separated according to usage, minimising waste.

Premium quality, these rolls are super absorbent and super strong!

Available poly-wrapped or in a handy dispenser box for easy use and come in two different widths: 50 and 100cm.

UR012	Spec of general absorbent roll 40"x165' - 200GSM
