

OIL STORAGE MAINTENANCE AND COMPLIANCE

Andel Cold Fusion Liquid Membrane

Cost-effective, quick and easy sealing system specially developed for transformer bunds

Bund sealing system that is fast-curing, flexible for crack bridging and fire resistant

Andel Cold Fusion Liquid Membrane can be used on any internal bund surface and has a service life of over 20 years. The lifespan, speed of installation and weather resistance makes Andel Cold Fusion Liquid Membrane one of the most cost-effective on the market.

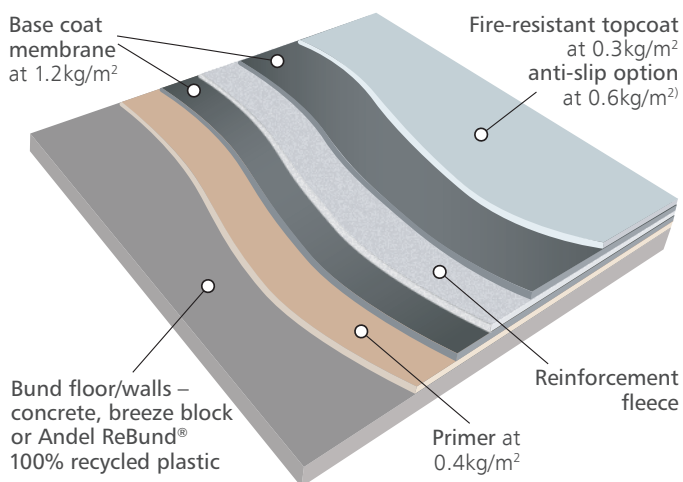

The system provides high resistance to the elements. Topcoats can be tailored to resist a range of contaminants and provides 100% guaranteed liquid retention.

Easy application

Andel Cold Fusion Liquid Membrane is quick and easy to apply using standard equipment such as spatula, rake, and rollers and includes a liquid primer, a liquid base coat membrane, ATEX-rated catalyst, reinforcement fleece and a fire-resistant liquid topcoat with an anti-slip option.

Product is supplied with detailed instructions for mixing, application, storage and health and safety and are all available on request.

Typical system specification

Site conditions vary, please contact Andel or your distributor for a site survey and project specific details.

Benefits at a glance:

- Cost-effective, premium quality product specially developed for transformer bunds
- UV stable
- Weather resistant
- 20-year warranty at no extra cost (other liquid systems usually maximum 15 years)
- Ideal for new build and retrofit
- Very fast curing time of around one hour between layers
- Speed of installation means lower labour costs and less downtime
- 100% guaranteed impervious elastic seal
- Can be applied to any bund surface
- Oil resistant
- High chemical resistance means it is also suitable for a range of other contaminants
- Liquid formula makes it quick and easy to apply with standard equipment
- Reinforcement fleece fills any cracks and gaps in the bund surface
- Topcoat fire resistant finish – tested to: DIN EN ISO 11925-2: 2011-02, DIN 53438-2:1984-06 and DIN 53438-3:1984-06

A flexible solution

Fast-cure Andel Cold Fusion Liquid Membrane forms an elastic, fire-resistant, weatherproof and watertight seal and can be applied to any type of bund floor and internal wall surface.
